

We Are Hiring

LT & MT Planning (Water Resources) – Balikpapan Office –

Job Overview:

Planning, designing, and managing water-related projects such as weather and rainfall prediction, de-watering systems, wastewater treatment facilities, flood control, and irrigation systems. Ensure efficient and sustainable use of water resources while mitigating environmental impacts.

Job Requirements:

1. Bachelor's degree in Water Resources Engineering or Civil Engineering with a concentration in Water Resources.
2. More than 3 years' experience in the Water Management or in a similar role.
3. Preferably have knowledge of GIS (Geographic Information Systems) for spatial analysis and data management.
4. Familiarity with hydrological modeling techniques and watershed analysis.
5. Proficiency in hydraulic modeling software.
6. Understanding of water quality parameters and treatment processes.
7. Understanding of government regulations related with water resources.
8. Effective communication skills in both written & spoken English to work within cross-functional teams.
9. Proficient in Microsoft Office (Word, Excel, Power Point, etc).
